TOIT Reviewers over 2015 and 2016

TOIT's success in maintaining its standards of quality and timeliness relies in large part on the efforts of peer reviewers. Since the review assignments for any article or issue are kept anonymous to promote impartiality, we acknowledge their efforts en masse here. This list includes all those who submitted at least one review over the two-year period from January 1, 2015 to December 31, 2016.

On behalf of TOIT authors, associate editors, and guest editors, I thank you for your professional service.
