Editorial

It is my pleasure to welcome two new Associate Editors to the Editorial Board of ACM TOSEM: Travis Breaux and Tevfik Bultan. Both of them are internationally leading experts in key areas of software engineering research for which TOSEM receives many submissions. Please join me in welcoming them to TOSEM!

In addition, I would like to express my sincere thanks to Yannis Smaragdakis, who is rotating off the Editorial Board after many years of fine service to TOSEM.

DAVID S. ROSENBLUM

Editor-in-Chief

Associate Editor Effective April 2018

Prof. Travis D. Breaux
Institute for Software Research
School of Computer Science
Carnegie Mellon University
5000 Forbes Avenue
Pittsburgh, PA 15213

TRAVIS D. BREUX is an Associate Professor of Computer Science, appointed in the Institute for Software Research of the School of Computer Science at Carnegie Mellon University. Dr. Breaux's research program searches for new methods and tools for developing correct software specifications and ensuring that software systems conform to those specifications in a transparent, reliable, and trustworthy manner. This includes demonstrating compliance with U.S. and international privacy and security laws, policies, and standards. Dr. Breaux is a recipient of the 2015 NSF CAREER award and Director of the Requirements Engineering Laboratory at Carnegie Mellon University. Dr. Breaux has publications in ACM and IEEE-sponsored journals and conference proceedings, including best paper nominations and an honorable mention for a 10-year most influential paper award. Dr. Breaux is a member of ACM SIGSOFT, IEEE Computer Society, and a former Chair of the Privacy and Security Subcommittee of the USACM Public Policy Committee.

Associate Editor Effective May 2018

Prof. Tevfik Bultan
Department of Computer Science
University of California, Santa Barbara
Santa Barbara, CA 93106-5110
USA

TEVFIK BULTAN is a Professor in the Department of Computer Science at the University of California, Santa Barbara (UCSB). His research interests are in software verification, program analysis, software engineering, and computer security. He co-chaired the program committees of the 9th International Symposium on Automated Technology for Verification and Analysis (ATVA 2011), the 20th International Symposium on the Foundations of Software Engineering (FSE 2012), which is the flagship conference of ACM SIGSOFT, and the 28th IEEE/ACM International Conference on Automated Software Engineering (ASE 2013). He has served as the vice chair of the Department of Computer Science at UCSB from 2005 to 2009. He received a Faculty Early Career Development (CAREER) Award from the National Science Foundation in 2000, the ACM SIGSOFT Distinguished Paper Award and the Best Paper Award at the 20th IEEE/ACM International Conference on Automated Software Engineering (ASE 2005), the ACM SIGSOFT Distinguished Paper Award at the 29th IEEE/ACM International Conference on Automated Software Engineering (ASE 2014), and the UCSB Academic Senate Outstanding Graduate Mentor Award in 2016. He was recognized as an ACM Distinguished Scientist in 2016.
