We are delighted to welcome you to this issue of the Proceedings of the ACM on Human-Computer Interaction, which contains scholarship from the Computer-Supported Cooperative Work and Social Computing (CSCW) community. This is the second issue that represents the new quarterly submission model. This issue has 91 papers accepted from the January 2020 round (16 previously accepted papers from the January 2020 round were published in a prior issue and another 19 accepted this round will be published in a later issue). This indicates an overall 40.1% acceptance rate from the 310 submissions in January 2020. This issue represents the contributions of external reviewers, Associate Chairs, and the dedicated Editors, who were essential to carrying through the review process, especially during a global pandemic. As Papers Chairs, we are delighted to continue shaping and disseminating CSCW's tradition of high-quality scholarship.
