We are delighted to present this issue of the Proceedings of the ACM on Human-Computer Interaction, which contains scholarship from the Computer-Supported Cooperative Work and Social Computing (CSCW) community. This is the third issue that represents the new quarterly submission model. This issue has 67 papers, 19 from the January 2020 round and 48 from the June 2020 round. This issue represents the contributions of external reviewers, Associate Chairs, and the Editors, all of whom continue to carry out a high-quality review process during a global pandemic. As Papers Chairs, we are grateful for the community's shared efforts to continue shaping and disseminating CSCW's tradition of high-quality scholarship.
