Call for Nominations
Editor-In-Chief
ACM Transactions on Sensor Networks

The term of the current Editor-in-Chief (EiC) of the ACM Transactions on Sensor Networks (TOSN) is coming to an end, and the ACM Publications Board has set up a nominating committee to assist the Board in selecting the next EiC.

Nominations, including self-nominations, are invited for a three-year term as TOSN EiC, beginning on January 15, 2024. The EiC appointment may be renewed at most one time. This is a voluntary position, but ACM will provide appropriate administrative support.

Appointed by the ACM Publications Board, the EiCs of ACM journals are delegated full responsibility for the journal’s editorial management consistent with the journal's charter and general ACM policies. The Board relies on EiCs to ensure that the journal’s content is of high quality and that the editorial review process is both timely and fair. The EiCs have the final say on the acceptance of papers, the Editorial Board size, and Associate Editors' appointment. The ACM Volunteer Editors Position Description contains a complete list of responsibilities.

Nominations should include a CV along with a brief statement of why the nominee should be considered. Self-nominations are encouraged and should additionally include a statement of the candidate's vision for the future development of TOSN.

The deadline for submitting nominations is November 30, 2023, although nominations will continue to be accepted until the position is filled. Please send all nominations to the search committee chair, Gian Pietro Picco (gianpietro.picco@unitn.it) by specifying “TOSN EiC search” in the e-mail subject.

The search committee members are:

- Wendi Heinzelman (University of Rochester, USA)
- Polly Huang (National Taiwan University, Taiwan)
- Gian Pietro Picco (University of Trento, Italy), Chair
- Anthony Rowe (Carnegie Mellon University, USA)
- Thiem Voigt (Uppsala University and RISE, Sweden)

The ACM Publications Board Liaison is: Holly Rushmeier (Yale University, USA)
